Report Writing Skills

Appropriate Titles

Following are my suggestions of the titles:

- I. **How Technology Assists in Language Learning**
- II. **Technology-assisted Learning of English Language**
- III. **How Technology can be Utilized for English Language Learning**

Purpose

The purpose of this report is to bring awareness on how technology can be utilized in the learning of English language.

Methods

Experimental research was conducted to evaluate the effect of Online Courses and Technology Assisted Language learning for teaching of the English language. For this purpose, two classrooms were selected as control group and experimental group respectively. One of them was taught with Technology Assisted Language Learning and other without it.

Results

The results of the study revealed a significant difference in the language proficiency and fluency of students with the use of mobile applications compared to the other group of students who used face-to-face interaction confined within a classroom.

Conclusions

The report concludes that social networking applications commonly found in a mobile phone can serve as potential English Language Learning tools, due to the versatility of their features.

Recommendations

In the light of findings, it is recommended that English being a Lingua Franca, require more efforts to develop the English language learning abilities right from an early age. This can be achieved by replacing traditional methods of teaching with alternative means and the integration of technology.
